I hope the team Aerofly FS 2 even can do more animated airplane and vehicle in a further.. I think this price is acceptable and I recommend buying it for supporting IPACS.. aerofly fs 2 - orbx - monterey regional airportThe region itself is a great work, which looks awesome especially at night.. Monterey is the perfect location for exploring the rugged coastal ranges of Big Sur, world-famous coastline of Carmel and Pebble Beach, and for regional flights to San Francisco, Los Angeles and Palm Springs..

The airport is highly detailed, but the scenery and 3D buildings around is even not as fancy as NY.. Featuring accurate airport modelling, unique static aircraft and vehicles, dense hand-placed vegetation and many points of interest around the city, you will find yourself at home in all types of aircraft at this multi-use airfield. Anyway, considering IPACS released Colorado weeks ago, which is really awesome and is even free.. I like the animation people round this nice Airport KMRY That do this airport much more realistic.. Tons of detail around the airport I was initially a little hesitant to buy Monterey Airport scenery, but I am glad I did! It is really impressive.. Good work and thanks to Team Aerofly FS 2 The region itself is a great work, which looks awesome especially at night.. ly/2NDqqtFMirror ->>->>->> http://bit ly/2NDqqtFAbout This ContentA classic Orbx destination brought to life for Aerofly FS 2, virtual pilots are welcomed to Monterey Regional Airport, one of California's most scenic airports..
